

Scientific meeting of the Dutch-Belgian Neurosurgical Societies

Â *Trends in Functional and Oncological Neurosurgery*Â (download flyer)

Dear Colleagues,

It was a pleasure to organize the joint scientific meeting of the Dutch and Belgian Neurosurgical societies on 15-16 September in Den Bosch, The Netherlands. We continued the successful series of these meetings and we look back at many interesting presentations on current trends and future perspectives in Functional and Oncological Neurosurgery, and at the lively discussions.

Thank you all for participation.
